

# ST. EDMUND'S ACADEMY

## Admissions

Admissions decisions are based upon a combination of several factors that include admissions testing, previous school records, report cards, standardized test results, teacher recommendations and our observation of the child. Important also is the information and observations that you, who know your child best, share with us. The goal in the Admission Office is to work closely with a family and our faculty to ensure that each child will have the support and stimulation needed to flourish at St. Edmund's Academy.
